Model example of transport from the Czech Republic to Germany

DSV System

- Standard transport of general cargo shipments across Europe
- Due to optimisation of goods flows, the delivery time may be extended by one day compared to the time stated in the schedule, or by two days if the transport distance exceeds 1,200 km.

Operating principle of DSV System

D = day of shipment pickup; this is a model example. Exact delivery dates for individual destinations are available in the Schedule application on the myDSV portal.
